# Gardening For Peace

Gardening is a peaceful pursuit. It is the most popular of out-of-door sports and the most essential of all human activities.

Many people have learned of the joy and profit derived from Victory Gardening. Those to whom gardening was new during the war years will want to continue this healthful and gainful pleasure.

Reports indicate that foods will be short of requirements during these early peace time days. And the need for conservative home vegetable production still exists.

Gardening will be made easier this year. Seeds are in ample supply, as are commercial fertilizers. The garden tool situation is easier, many items not seen since early in the war, now being available.

We will again grow thousands of vegetable plants for early crops.

Garden for Peace as You Did for Victory.

# Vegetable Seeds

**Discount of 5% for cash on orders of \$2.00 or more.**

As the successful growing of seeds, plants and bulbs depends in a large measure on proper weather conditions and cultural methods, we can give no warranty, express or implied, as to the productiveness, quality, or any other matter, and will in no way be responsible for the crop.

All prices in this catalog conform with O. P. A. ceiling regulations where applicable.
